

Richards Ramble:

The hot weather is something that totally divides us. Some people cannot cope with it whilst others (such as Carolyn and I) love it. Whatever our perspective, all of us need the sun to give us the B12 vitamin we require to keep us healthy. However, too much sun can, of course, give you other health problems. The key is not to overindulge but to ensure that we have enough sun to pep us up. Most things in life are like that. Too much of a good thing is bad for you one way or another. Or as may people say, moderation in everything.

When it comes to the kingdom of God, that is one area where we should not be giving moderation. Jesus' call to disciples is a total commitment with all that we are and all that we have - holding nothing back. We are called to be extremists in love and grace. We are called to throw everything on the altar. Too much moderation leads to insipidity. Let us all be full flavoured, colourful, outrageous children of our loving Father.

God bless, **Richard**

Discovery Course & Foundations Course

5 people have participated in and completed the 6 week Discovery course, led by Richard, Carolyn & Angela. There's been food, laughter, chat, talks about Jesus, God,, and the Holy Spirit, discussions and prayer. Everyone enjoyed meeting so much that we followed it with a Big Questions night where we could ask anything to do with God and church. Still they wanted more so we have followed that with the Foundations Course where we look at everything a new Christian needs to know including different ways of praying, worshipping and reading the Bible. We will break after 4 weeks of Foundations for the summer and then finish the last 4 weeks in September

Inspiring Individual Change - Beverley's First Eco Fair 2023

We are delighted to be launching Beverley's first Eco Fair in the Minster on 30th September 2023 and are keen to invite the you to join this highly anticipated event.

Set in our beautiful, medieval church, and with a focus on inspiring people to make sustainable change, the Eco Fair will provide opportunities for relevant local and national organisations, businesses, charities and individuals to showcase their products and services to help people identify ways they can take their own actions for change.

On Saturday 30th September visitors of all ages from across the East Riding and beyond are invited to attend the Eco Fair for free, where they will experience a wide range of stalls, talks, workshops and activities designed to provoke and inspire environmental change on a personal level. Locally sourced and environmentally sustainable food and refreshments will be on sale too.

Eco Fair is organised by Beverley Minster Eco Church Group, with the support of East Riding of Yorkshire Council and Churches Together in Beverley. The Minster itself is a major tourist attraction in the area which has a strong track record in successfully hosting a range of well-attended events such as the annual Christmas Tree Festival, Retro and Gin Fairs as well as many concerts, all of which attract people from around Yorkshire.
